FROM OUR PARTNERS

“Richard Diebenkorn: Works on Paper, 1955-1967”
Van Doren Waxter – New York
November 8 – January 20

Organized in partnership with the Richard Diebenkorn Foundation, this show examines the formative years the pioneering American abstract artist spent in the Bay Area, melding elements of abstraction and figuration in a way that was considered sacrilegious by the avant-garde’s purists at the time. The works, which depict such intimate domestic subjects as the view from Diebenkorn’s studio window and his cherished dog, bring to life a time of great creativity and artistic ferment—eventually culminating in the artist’s triumphant return to abstraction.
