VOLKER HÜLLER

Gallery Affiliations: 11R Gallery

Region: Northeast

Volker Hüller's work engages diverse media to engulf the viewer in a world where shapes and meaning are fragmented and interconnected to present an eerily abstract sense of portraiture and narrative. Like many artists of his generation, Hüller isn't caught up in the notion of a singular style; his output careens from figurative to abstract, from quasi-narrative to absurd, with detours into lovingly lumpy sculpture along the way.
